The support team will specialize in 3 areas of risk management: individuals who have a history of aggressive or assaultive behavior, individuals who are on parole or probation, and individuals in need of sex offender treatment. The team's focus will be on developing a plan that will promote independence while ensuring the appropriate levels of oversight and training to allow the individual to safely and successfully engage in community integration. Collaboration with agency, community and legal providers will play a prominent role in the process.
